

Amendments to the Specification:

Please replace the paragraph beginning at page 5, line 20, with the following rewritten paragraph:

--The ~~supporting~~ guide member 20 is made by molding an electrically insulating material and comprises, as shown in Figs. 1(B), a substantially plate-like support portion 21 extending laterally and a pair of columns 22 and 23 provided at sides thereof in the lateral direction and connected to the support portion 21.--
